OBJECTIVE

Apply what I've already learned independently when working with large communities and clients in freelance sector to an organized and larger team environment.

TECHNICAL SKILLS

Primary Front End Technical Expertise

HTML5 CSS3 Javascript JQuery Bootstrap Git React

Other Relevant Technology Experience

PHPWordpress MySQL phpMyAdmin Ubuntu

PROJECT EXPERIENCE

KF2Calc

Single Page Web Application for a popular video game with sustained userbase

<https://tor020.github.io/Killing-Floor-2-Calculator/>

- Fully Responsive using Bootstrap CSS.
- Communicated directly with userbase social media for feedback, bug fixes, and new features
- Over 100 hours debugging various components and utilizing JQuery Documentation Chrome Dev Tools and stackoverflow.com for solutions. Technologies: HTML5, CSS3, Javascript, JQuery, Bootstrap3, Git

Wordpress Website

Showcase for Work Experience and Landing Page for Clients

<https://www.kcwebdevoh.online>

- Setup from Cpanel server backend and imported from a wordpress installation that was developed offline with custom domain name

To-do List

Single Page Web Application

<https://github.com/Tor020/ToDoWebApp>

- The code architecture is styled after the model-view-controller pattern to show convention understanding
- All application functionality is handled by three different entirely modular Javascript objects that interact with each other.

WORK EXPERIENCE

Self-Employed

June 2017 — Present

Web Developer

Tasks involved WordPress Website construction and writing HTML, CSS, and Javascript to fix and improve client's websites.
