OBJECTIVE

Apply what I've already learned independently when working with large communities and clients in freelance sector to an organized and larger team environment.

TECHNICAL SKILLS

Primary Front End Technical Expertise	**Other Relevant Technology Experience**
HTML5 CSS3 Javascript JQuery Bootstrap Git	Wordpress,Unix, Wireframes, React, Gulp, SFTP

PROJECT EXPERIENCE

KF2Calc

Single Page Web Application for a popular video game

https://tor020.github.io/Killing-Floor-2-Calculator/

- Utilizes Bootstrap framework fully supporting a mobile friendly design resizing for all screen sizes
- Communicated directly with userbase social media for feedback, bug fixes, and new features
- Over 100 hours debugging various components and utilizing JQuery Documentation Chrome Dev Tools and stackoverflow.com for solutions.Technologies:HTML5, CSS3, Javascript, JQuery, Bootstrap3, Git

Wordpress Website

Showcase for Work Experience and Landing Page for Clients

http://www.kcwebdevoh.online

- Setup from Cpanel server backend and imported from a wordpress installation that was developed offline with custom domain name

To-do List

Single Page Web Application

https://github.com/Tor020/TodoWebApp

- The code architecture is styled after the model-view-controller pattern to show convention understanding
- All application functionality is handled by three different entirely modular Javascript objects that interact with each other.
- The todolist object represents the model, handlers object acts as the controller, and a view object to represent the view. Technologies: HTML5, CSS3, Javascript

EDUCATION

2010 — 2012

Lorain County Community College
